REASONS FOR ALLOWANCE

Claims 1-22 are allowed. The following is an Examiner's statement of reasons for allowance:

Independent claim 1 of the present application teaches, for example, an apparatus, comprising: a cycle redundancy check calculator, wherein the CRC calculator and the nullifier are configured to determine a CRC value over an input data stream whose width is less than the width of an input data bus of the CRC calculator, and wherein the CRC value is determined by a reverse exclusive-OR operation on each of the bits from the CRC calculator using the CRC nullifier when the current transfer contains an end of packet character. The foregoing limitations are not found in the prior arts of record. Particularly, none of the prior arts of record teach nor fairly suggest, *"...the CRC calculator and the nullifier are configured to determine a CRC value over an input data stream whose width is less than the width of an input data bus of the CRC calculator, and wherein the CRC value is determined by a reverse exclusive-OR operation on each of the bits from the CRC calculator using the CRC nullifier when the current transfer contains an end of packet character..."*

Independent claims 11 and 20 include similar limitations of independent claim 1 and therefore are allowed for similar reasons.

Dependent claims 2-10, 12-19, 21 and 22 depend from allowable independent claims and inherently include limitations therein and therefore are allowed as well.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mujtaba K. Chaudry whose telephone number is 571-272-3817. The examiner can normally be reached on Mon-Fri 9-7:30.
